

# Design and technology combine to produce the ultimate hydromassage

**Jacuzzi® presents Muse.** Get inspired by this exciting combination between the ancient art of Shiatsu massage and the new TargetPro™ jets which make the exclusive Jacuzzi® classical hydromassage and the AQS® system even more effective. A synthesis of the classical and holistic vision of wellness with its flowing pared-down lines, Muse enters a new aesthetic and technological dimension. The soft profile embracing its top rim is the characteristic feature of a spacious and sinuous whirlpool bath whose iconic shape is the very image of comfort.

**Shiatsu hydromassage.** 32 progressive micro-jets arranged along the back, from the cervical to the lumbar zones generate a sequence of pleasurable water pulses that are adjustable in intensity; to be used in an upward direction for a **tonic** effect and downwards for **relaxation**, so that energy may be perfectly restored. This type of massage, stemming from an in-depth study of the manual massage technique reproduced thanks to exclusive Jacuzzi® technology, stimulates energy and confers a profound sense of psycho-physical wellbeing.

**TargetPro™ jets.** Designed to offer a hydromassage treatment that is even more personalized and versatile to suit individual needs. The new TargetPro™ jets can be adjusted directionally to reach where you need it the most. Jets may be regulated as required by simply rotating the nozzles.

**J.touch remote control.** It lights up in response to a mere touch and enables all functions to be selected easily and intuitively: Shiatsu and AQS® hydromassage programmes, Cromodream®, water temperature control and Sound System with Bluetooth®.

UK COD 220106063 - 09/2013

**FUNCTIONS**  
 Classic Jacuzzi® hydromassage with TargetPro™ jets  
 Shiatsu hydromassage with sequential microjets  
 Programmes: Tonic and Relax  
 Aquasystem® with TargetPro™ jets
